BIOGRAPHY

Dylar Ruther is a Tanzanian artist, songwriter and producer whose sound sits at the intersection of Afrobeat, Bongo Flava and melodic hip-hop. Building his catalogue from the ground up since 2019, he writes, produces and engineers his own records, a creative self-sufficiency that gives his music a distinct voice in the East African landscape. He works within the Pluto Republic creative ecosystem alongside producer S2Kizzy, and records with Bigger Dreamz. The work is built on craft rather than formula: regional roots, and an ear for where the sound travels next.
